

# Thermal Baths quest

Name(s) :

## 1. The thermal baths rooms :

By recalling what you did with the costumers  
and looking at this plan:

Indicate under each image of the game below the  
name of the corresponding room and what was done  
there:

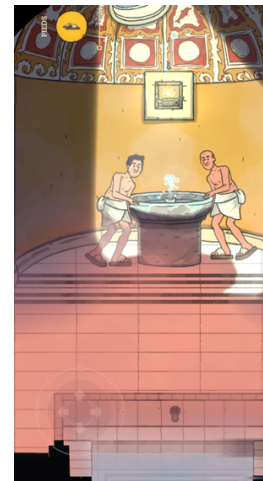

Name:

Activity:

Name:

Activity:

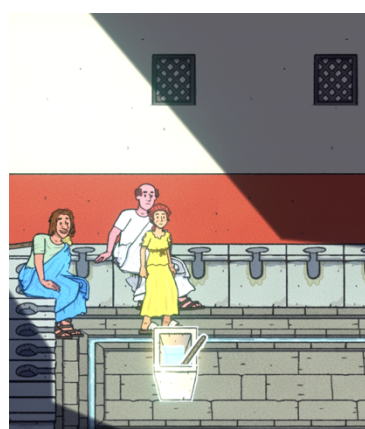

Name:

Activity:

Name:

Activity:

Name:

Activity:

Describe an afternoon you would spend at the thermal baths, specifying the places and activities you would do (don't forget the final bath of the game) :

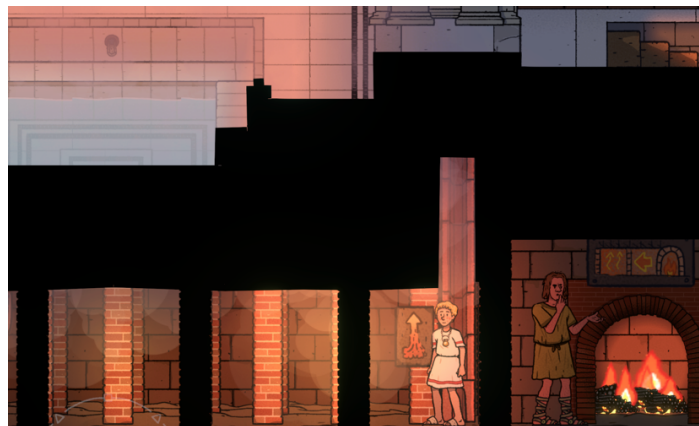

## 2. The heating system

Circle the correct answers:

The boiler is powered by wood/electricity/gas. The heated air/water passes under the floor/through radiators.

Indicate with:

- ⇒ a red arrow where the hot air comes from,
- ⇒ An orange arrow where it passes to heat the pool water.
- ⇒ A yellow arrow where it passes to heat the wall.

### 3. The hydraulic system (water):
